Dear Sweety,

Wonderful, I have so enjoyed watching this video prepared.

You prepared some lovely slides. You get off to a great start with a lovely introduction and you connect with your audience to explain your career and then what CNSs do and how you can enter into these roles.

Your passion inspires the audience and you encourage others to be brave with their career development. There were some good practical tips too.

I liked that you asked questions and got people thinking about what this might mean for them. I appreciated your honesty about what was hard.

I think you have done such a good job. Thank you so much for doing this and I hope you had a great holiday.

Hello Sweetsy

Thought I would share with you some of things the MDT have written about you and your practice. You will be able to use as feedback for revalidation.

Kind Regards

Sweetsy

Has taken on responsibility for the lead nurse for remote monitoring programme that has 1700+ patients being supported and followed up remotely. She also helped design the escalation pathway for nursing and medical input. This has ben invaluable in

reducing clinic appointments and maintaining appropriate oversight of care. Sweetsy has always been positive and keen to improve the service and is a fantastic member of the team.

Best wishes

Omar
